

Introducing

DENTAL TRAUMA GUIDE

2018

The Dental Trauma Guide has been a paid-for-service since early 2017

The Dental Trauma Guide is the world leading, web-based tool to evidence based dental traumatology. The Dental Trauma Guide is rooted in the University Hospital of Copenhagen, Rigshospitalet, and is a research based non-profit organization. Since its start in 2008, the Dental Trauma Guide has been funded by a number of foundations and has thus been able to provide its services free of charge to the more than 350.000 annual users from all over the world. This source of funding is no longer available.

The Dental Trauma Guide is subscription based

The Dental Trauma Guide is now a subscription based, paid-for service. This will ensure the long term viability of the Dental Trauma Guide to the benefit of the professional users and their patients.

World leading

The Dental Trauma Guide continues to be the world leading tool in the field of evidence based, dental traumatology with easy-to-follow, animated treatment demonstrations. It is still anchored in the University Hospital of Copenhagen, is still not-for-profit and is recognized as the legacy of Dr. Odont. H.C. Jens Ove Andreasen.

New improved website

The New Dental Trauma Guide will feature an improved website with a user-friendly design. The design ensures even faster diagnosis and treatment planning plus individual prognosis for a given case. The New Dental Trauma Guide will still host regular symposiums in the field of dental traumatology and will offer a range of additional, free-of-charge services to its subscribers.

2018 prices

The Dental Trauma Guide 2018 prices are shown below. As a subscriber you get immediate access to a full range, illustrated diagnostic and treatment planning tool for dental trauma. Through your subscription you support the ongoing research and development in the field of dental trauma. The texted guidelines issued by the I.A.D.T. will continue to be offered free of charge.

Sign up now!

-in order to ensure the continued development of the research based Dental Trauma Guide

The annual group subscription for dental associations and organizations, universities and higher educational facilities is based on the number of users in the organization. The group subscription fee is subject to a significant discount on the fee for individual subscriptions of \$ 30 / € 26. The subscription period is 12 months on a rolling basis.

In addition to the professional benefit of being able to offer dental trauma patients the best possible treatment with the best possible prognosis, each user of a group subscription will be entitled to the following, additional benefits among other:

- Access to various animation based treatment procedures. In less than 90 seconds you will be fully updated
- Individual prognosis determination for various treatment options for all injury types with a print-out service plus patient instructions
- Regular, electronic newsletter

Existing subscribers will automatically be forwarded subscription renewals at the end of the current subscription period. New subscribers: please contact us at info@dentaltraumaguide.org for group subscriptions and more information.
